

► The song, by American singer Selena Gomez in collaboration with electronic music producer Marshmello, was released in 2017 and was the second-most successful electronic song of 2018 in the US. Selena Gomez considers it one of her favourites. There has been plenty of speculation about the meaning of its title, including reference to a chronic autoimmune disease the singer suffers from, which is in fact called Lupus, a Latin word that means “wolf”.
Look for the song on YouTube and fill in the missing words.
